

The FAA Safety Team presents:

Mayday - Emergency at the Maryland Regional Festival of Flight

Many pilots and controllers have misconceptions about who can declare an emergency, but 14 CFR Part 91.3 clearly states that "In an emergency requiring immediate action, the pilot in command may deviate from any rule... to the extent required to meet the emergency." For unexplained reasons pilots don't like to ask for help or declare an emergency... but why? At this informative briefing, featured speaker John Cutcher, an FAA Pilot Examiner will discuss when and why a pilot should declare an emergency, as well as what happens after an emergency declaration has concluded. Attend this seminar and enjoy all the other attractions at the Third Annual Maryland Regional Festival of Flight! Click on the link below to see all the details! We'll see you there!

Directions: Take MD Route 50 to Stephen Decatur Highway (611) about 3/4 miles West of the bridge into Ocean City, head South on Stephen Decatur Highway then turn left on Airport Road.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
