

The FAA Safety Team and BWI FSDO presents:

FAASTeam Flight Instructor Open Forum

Single pilot resource management (SRM) is defined as the art and science of managing all the resources (both onboard the aircraft and from outside sources) available to a single pilot (prior to and during flight) to ensure the successful outcome of the flight. How do you teach SRM to your students? Do you use the 5P model? At this forum we'll discuss how and what to teach your students about SRM. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register today as seating is limited!

Directions: Please see map link for directions, from the Airfield Road turn left on to General Aviation Drive, the classroom is in the first building on your right just before the flagpoles.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
