

FAASTeam presents:

FAASTeam Flight Instructor Open Forum

How do you teach your students Aeronautical Decision Making (ADM)? Aeronautical Decision Making is a systematic approach to the mental process used by pilots to consistently determine the best course of action in response to a given set of circumstances. In other words, it is a systematic approach to risk assessment and stress management. Sounds easy, right? At this FAASTeam Flight Instructor Open Forum we will explore ADM and how you can teach it to your students to assess risk and manage stress. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Directions: Turn south on the airport entrance road from MD198, just south of MD 32. Take the left turnoff to General Aviation Drive. The classroom is in the first building on your right just before the flagpoles.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
