

Chesapeake Sport Pilot -- Sensational Seaplanes Spring Picnic

Have you ever seen a Seaplane pilot without a smile? Of course not! Find out why they are a blast to fly. Come learn the basics of seaplane operations, to include how to "read" the water to tell wind speed and direction, the primary differences between landing on a hard surface and water -- the differences may surprise you. We will also discuss how and where to get started in seaplanes: flying boats, float planes and amphibians. Click on the link below and register TODAY.

Directions: The event is located in the hanger at Chesapeake Sport Pilot's building, street side and center of the main ramp on the runway side of the building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
