

Getting the Most Out of Flight Reviews and Instrument Proficiency Checks

Flight reviews and Instrument Proficiency Checks should be used for more than just meeting the requirements of 61.57. Instead, they should be used as a period to further develop the pilot's skills and knowledge base. After all, your pilot certificate is just a certificate to learn! Join us as we discuss how to get the most out of your flight reviews and instrument proficiency checks and how to make the process go smoothly.

Directions: V1 Aeronautics is located on the north side of Hagerstown Regional Airport; the flight school is located in the building adjacent to the FBO on the second floor. Access to the north side of the airport is via Rt. 11. Attendees traveling north or south on I-81 can use the Exit 1 in PA or Exit 10A in MD. From Rt. 11, turn onto Henson Blvd, where individuals should turn left at the entrance near the air traffic control tower.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
