

FAASTeam presents:

# Mastering the Art of Instrument Navigation

IMC Club, through its nationwide EAA chapters, provides organized “hangar flying” focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. You do not have to be instrument rated to attend. Click on the link below and register TODAY. Question of the Month:

“Your diversion airport only has an ILS. You shoot the ILS and land safely but then realize you have not performed a VOR check within 30 days of this flight, you further realize to that your GPS database is out of date. Were you legal enroute? Were you legal on the ILS?

**Directions:** AOPA Aviation Community Center is located on the south end of Frederick Municipal Airport. From Hughes Ford Road, turn right on Bailes Lane which turns into Bucheimer Road. The AOPA Aviation Community Center is on the left.
