

Best Glide Speed and Minimum Sink Rate

In this presentation we'll address recommendations from the General Aviation Joint Steering Committee -- a government/industry group that analyzes GA accidents and incidents. The Committee feels that improved pilot knowledge of and proficiency in flying at best glide speed and configuration will increase the chances of successful forced landing.

Directions: Hangar 18 CAP Congressional Sqdn

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
