

FAASTeam presents:

Everything You Always Wanted to Know About the WINGS Program

Participating in the WINGS program helps pilots stay safe and proficient. Learn all the ins and outs of the program. Discussions will include how to sign up if you aren't already in the program, how to find topics that are most relevant to you and your type of flying and how to make sure you are getting all the credit you deserve for your ground and flight training. Learn how the WINGS program can take the place of your required flight review and how many insurance companies give discounts to pilots that have a current WINGS phase completed. Also some of the topics covered by WINGS, loss of control accidents, fuel mismanagement accidents and other topics will be discussed.

Directions: Seminar will be held in the gray Chesapeake Sport Pilot hangar at Bay Bridge Airport.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
