

FAA Safety Team presents:

## **CFI/DPE Forum**

As Flight Instructors, setting the stage for a lifetime of proficient flying is as much a part of our job as any other lesson we impart upon our students. Continued Pilot Proficiency is as important for the fair weather flyer as it is for the most seasoned pilot. At this informative meeting, we will discuss steps we can take to guarantee our students plan for proficiency in the future, long after they pass their practical test. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

**Directions:** From MD 198, enter the airport on Airfield Drive. Turn left onto General Aviation Drive. The first driveway on the right leads to the parking area for the classroom. The classroom is first one story building you come to. As you face the flagpoles, the building and its entrance is to the right.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
