

VFR in the Wild West of Interstate 81 Airports

The non-towered airports along Interstate 81 are used by many students and certificated pilots for cross-country flights and to escape the Washington DC Special Flight Rules Area. There is often a mix of high performance aircraft, rotorcraft, and slow training aircraft on nice VMC days. This event will give CFI's and DPE's an opportunity to discuss safety strategies in an open forum setting. All ideas are welcome. Please join us for a morning of brainstorming training techniques to make our airspace safer.

Directions: Take the Rt 50 East exit from I-81. Rt. 522 South, pass Costco, turn left onto Airport Road. Main Terminal building is on the left, enter main entrance to conference room

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
