

FAASTeam presents:

Mastering the Art of Instrument Navigation

The IMC Club, through its nationwide EAA chapters, provides organized "hangar flying" focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. You do not have to be instrument rated to attend. Click on the link below and register TODAY.

Question of the Month:

Can ATC assign an obstacle departure procedure? Should you request it, and is it going to become a part of your clearance?

Directions: The EAA Chapter 524 Aviation Education Center/Hangar is located at the Frederick Municipal Airport. As you enter the airport, park in the Terminal Parking lot. Walk south past the Frederick Flight Center (white building). There are signs on the end of the second row of hangars for the Chapter.
