

FAASTeam presents:

Rusty Pilot Refresher Course

This seminar covers the following areas pertaining to rusty pilots and those unfamiliar with the Baltimore-Washington airspace: Changes in airspace over the years The DC SFRA/FRZ and local Presidential TFRs New weather and briefing tools Changes in technology including ADS-B New medical rules, including light sport and BasicMed Aeromedical factors for older pilots Tools for self-guided continuing education Advanced Ground Instructor Kathy Harkness was introduced to flying when a friend bought her an introductory flight, which lit a fire in her to further explore aviation. She went on to earn a sport pilot license, buy a classic 1939 Luscombe, and earn an advanced ground instructor certification. As an AGI, she loves to light the fire under other prospective pilots.

Directions: Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines

The seminar is at the Chesapeake Sport Pilot building in the maintenance hangar.
