

FAASTeam presents:

# **FAASTeam February 2022 Topic of the Month Expand Your Horizons**

## FAA Team February 2022 ToM: Expand Your Horizons

### REGISTER HERE

#### Background:

?Pilots generally do not have accidents when in their "comfort zone", so it makes sense that we should train to expand that zone.

The General Aviation Steering Committee (GAJSC) System/Component Failure work group feels that proficiency training and education in stall, spin and upset recovery techniques, including unusual attitudes, will help reduce loss of control accidents.

#### Learning Points:

- The benefits of stall recognition, spin awareness and unusual attitude prevention/recovery training
- Expanded Envelope Exercises: Train beyond the ACS and have fun doing it
- Do it as part of FAA pilot proficiency flight activities, and earn a phase of WINGS

#### References:

- 14CFR 91.303 – Aerobatic Flight
- 14CFR 91.307 – Parachutes and Parachuting
- AC No: 61-67C - Stall and Spin Awareness

#### Training

- FAA-H-8083 – Airplane Flying Handbook
- E3 - Expanded Envelope Exercises

## Event Details

**Mon, Feb 14, 2022 - 18:00 EST**

Lead Representative Stephen Bateman

- Preventing Aircraft Loss of Control with Expanded Envelope Exercises
- ASI Safety Spotlight—Expanding the Envelope

This—and more—will be covered in this month's webinar and you'll receive WINGS credit for attending!

This webinar is part of the The Westminster Aerobats Flying Club (WAFC) monthly safety program.

WAFC uses WINGS for Clubs as the basis for its safety culture.

Call Steve (402 200 8930) for more information on WINGS for Clubs.

**Directions:** Please register here for the FAASTeam February 2022 ToM: Expand Your Horizons REGISTER HERE

After registering, you will receive a confirmation email with information about joining the webinar.

**A message from the National FAASTeam Manager**

Earn your WINGS to get a chance to win a cash prize. Go to [www.mywingsinitiative.org](http://www.mywingsinitiative.org) for more info.
