

Advanced Pre-Flight Inspection

This event is presented to help the new and the experienced pilot prepare for every flight. Things A&P mechanics look for can help the pilot stay ahead of their preflight game. After the PowerPoint presentation, we will perform a preflight on an EAA member's airplane with the guidance of an FAA Airworthiness FAASTeam Program Manager

EAA 1071's Chapter Hangar is inside the Southeast Hangar area at KMRB. If driving in, contact Lee Jones for security gate access at 240-675-4679

If flying in, park on the South ramp at taxiway B

Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.

A message from the National FAASTeam Manager
