

Drones and FAA Recognized Identification Areas (FRIAs) - Also Where They are Located

Event Details

We will discuss the basics of FAA Recognized Identification Areas (FRIAs) and how they are used to comply with the FAA Remote Identification Rule. We will also be sharing a map that can be used to find FRIAs and how to interpret this map with the information presented. After the discussion, we will have an open Q&A for questions about FRIAs and the map itself. We welcome feedback during the Q&A on the map for future improvements.
