

EAA Chapter 524 VMC Club Meeting - Mastering the Art of Aviation

These meetings use real-world scenarios to engage members and allow a free exchange of information that improves awareness and skills. The intent is to create a community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency.

The VMC Club monthly programming is developed and produced by EAA, but it does not use a lecture or presentation format. Instead, an actual scenario is presented and is followed by a group discussion. Audience participation is encouraged. Since everyone has a different experience level and type, we all benefit from the discussion.

This meeting will last about one hour and thirty minutes.
