

## In-Flight Weather Resources

- More pre and in-flight weather information is available than ever before but with that wealth of information comes complexity. Pilots must be comfortable with their choice of weather information services and they must be competent in making critical flight decisions based on assessments of the information provided.
- A thorough understanding of weather information resources capabilities and limitations is essential to safe flight.
- Weather information procurement and weather decision making should be covered in any proficiency training program.

No preregistration. Just click on this link:

[https://faavideo.zoomgov.com/webinar/register/WN\\_hwgVkSZySGaZXoshxIJSMQ](https://faavideo.zoomgov.com/webinar/register/WN_hwgVkSZySGaZXoshxIJSMQ)

It will ask for your email. Be sure to use your FAASafety.gov registration email. You will get an email with sign-in details. You can do this immediately or any time up to when you are checking into the seminar.
