

Safety Wire and Pilots

- **Pilots should note component safety provisions during inspections.**
- **Safety wire and devices must be properly installed in order to be effective.**
- **Safety wire should be installed so that tension is applied in the component tightening direction.**
- **Castellated nuts should have cotter keys installed.**

Sign up by clicking the link below. On the web “splash” page that opens, enter your name and email address. Use the email address for your WINGS account so you receive proper credit. You'll then receive an email with a link to click and a password to enter to sign in at showtime, as well as reminders 24 hours and 1 hour prior to showtime.
