

## AOPA Air Safety Institute Safety Seminar

### Learn How to Avoid Mid-Air Collisions From Real-World Case Studies

Join Adam Rarey from the AOPA Air Safety Institute as we examine the unique challenges of operating at non-towered airports and provide practical strategies to improve safety. Using real-world accident case studies, pilots will learn how better preparation, standard procedures, and proactive airmanship can reduce the risk of mid-air conflicts and surface incidents.

The seminar will be held from 11:30 am to 12:30 pm EST.

The seminar will be held in the second-level conference room in the Warrenton-Fauquier FBO building. Parking is available for free in the FBO parking lot.

#### A message from the National FAASTeam Manager
