

AOPA Presents Flying Clubs 101

One hour seminar about how flying clubs can thrive while promoting safety, pilot proficiency, camaraderie, and affordable access to flying. One of the best tools to foster a strong safety culture is the FAA WINGS Pilot Proficiency Program. In this session, we'll show how your club can leverage WINGS to promote ongoing proficiency, encourage members to fly more often, and maybe even reduce insurance cost. All while keeping flying fun and affordable. You'll learn practical ways to incorporate WINGS activities into club operations, organize group events around WINGS credits, and turn safety training into a fun, social part of club life. Safer Pilots, more flying, and less cost. That's a win-win.

Prior to departure, contact Concord Aviation Services at 603-228-2267. Advise the person who answers that you are arriving by air, tail number, and ETA.
