

Charleston, WV FSDO FAA Safety Team presents:

IFR Flight and The Single Pilot

Most IFR operations in smaller general aviation aircraft are flown by a “Single Pilot”. This informative presentation offers tips, techniques and proper operating practices. We will cover flying from start to finish. Phases of flight discussed will include trip planning, weather (Icing, convective activity, wind and turbulence), preflight, taxi, IFR take off, departure, enroute, approach planning, descent, approach, landing and missed approach. Also a special session on some very valuable tools such as electronic flight planning services, Internet Weather, and XM Satellite Weather. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: The seminar will be held in the main airport terminal building lobby from 9am-Noon
Contact information: Bob Dorton, (276) 880-5163,
