

Did I Forget a Screw?

Your aircraft is returned to service after having work done, but there are some important things to consider before you blast off into the sky. Also, the Code of Federal Regulations identifies who may perform preventive maintenance but are you familiar with the maintenance record entries that are required? Come join us for an interesting conversation about preventive maintenance. What is legal and what is safe? To attend this informative briefing click the link below and register TODAY.

Directions: The seminar will be held in the main airport terminal building lobby from 10am-Noon. Registration will begin at 9am.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
