

# Long Island Airspace Hot Topics

Long Island's Regional Airspace encompasses 1401 square miles. Nearly every class of airspace is represented within this area. With its numerous airports, controlled airspace, scenic Hudson SFRA Route and frequent pop-up TFR's, Long Island has it all. Review and share practical ideas at this informative seminar!

**Directions:** See Map Link and "Additional Seminar Information" for directions.

## A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
