

Tomorrow's Technology...What to Expect

Several new technologies and capabilities will soon influence major changes in civilian aviation. This next generation of electronic capability will almost completely move to satellite technology and the accompanying digital technology will make navigating safer and user friendly. Attend this informative briefing titled "Tomorrow's Technology, What to Expect" by featured speaker Joe Stewart. He will discuss Automatic Dependent Surveillance-Broadcast (ADS-B) implementation and benefits as well as Wide Area Augmentation System (WAAS) technology. Attend this important briefing and learn the details about this new technology. Click on the link below and register TODAY!

Directions: Please see map link for driving directions.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
