

The FAA Safety Team presents:

## Operation Raincheck

Attend this exclusive event and get a rare and behind the scenes look of an Air Traffic facility! Attendees will be furnished with a more complete understanding of the FAA's Air Traffic Control (ATC) system. Topics will include daily ATC operations, equipment and capabilities, Runway Safety, FAA regulatory requirements, the WINGS Pilot Proficiency Program and a review of recent aircraft accidents and incidents. All pilots and flight instructors are encouraged to attend. Very few pilots ever get to experience this opportunity and seating is limited so register today! See you there!

**Directions:** Please see the "Additional Seminar Information" for directions.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
