

The FAA Safety Team presents:

## The Ins and Outs of ADS-B

The movement to the next generation of aviation is being enabled by a shift to smarter, satellite-based and digital technologies and new procedures that combine to make air travel more convenient, predictable and environmentally friendly. ADS-B will play a major role in its rebirth. In this informative briefing you will learn the new look of air traffic control including everything you wanted to know about ADS-B and more. Click the link below and register TODAY! INCLEMENT WEATHER is FORCASTED for the day of this event. Please check the announcement on [FAASafety.gov](http://FAASafety.gov) prior to departure (the day of the seminar) in case the event is canceled.

**Directions:** Location can be accessed via major arteries: L.I. Expressway; Southern State Parkway; or Sunrise Hgwy; thence via Rt. 109 or 110.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
