

IMC Club at Republic Airport

A routine 3 hour flight to St.Louis starts out normal, but as we progress 'something' isn't quite right. Attend this exclusive meeting where the IMC club challenges IFR pilots (and others) on routing, go, no-go decisions, and possible unplanned events along the way to a Part 91 destination. After a video presentation, the floor is open to participants to weigh in with open discussion on how to handle the flight, referencing IFR weather. You do not have to be Instrument rated to attend! Click the link below to register TODAY!

Directions: One block West of Route 110, Terminal Building is just south of FRG Control Tower

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
