

Proficient Multi-Engine Flying

Major Airline Pilot and Designated Pilot Examiner Adam Rosenberg will go in depth on multi-engine flying. We will discuss aerodynamics, systems, flight planning, performance, maneuvers, human factors, decision making and common practical test errors as they relate to flying multi-engine aircraft. If you are a multi-engine pilot, a multi-engine instructor or thinking of becoming one, this is a must attend seminar. Adam will dive into the nuts, bolts and numbers of the many theories and buzzwords of flying multi engine aircraft. He will present the information in a methodical manner. This informative seminar will make you a better pilot making you more cognizant of the limitations of both pilot and aircraft. Do not miss it. Click on the link below and register TODAY.

Directions: The event will be held in the first floor training room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
