

Unmanned Aviation

The goal of this multimedia presentation is to disseminate knowledge about sUAS/UAV or “drone” technology. Unmanned aircraft (UA) configurations and technology will be showcased and discussed along with examples of present-day applications. Current regulatory landscape regarding operations in the NAS, as well as safety issues facing certificated pilots encountering these machines will also be addressed. RC hobbyists and aerial photography/videography enthusiasts will benefit greatly from this presentation as well. Various examples of UA will be on display for all to examine; Q&A as time permits. Click on the link below and register TODAY.

Directions: The meeting will be held in the 1st floor Amphitheater.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
