

Double the Engines, Double the Fun

Fly multi-engine aircraft safer with a deeper understanding of aerodynamics, performance, human factors and decision-making. Major Airline Pilot and Designated Pilot Examiner Adam Rosenberg will go in depth on multi-engine flying. We will discuss aerodynamics, systems, flight planning, performance, maneuvers, human factors, decision making and common practical test errors as they relate to flying multi-engine aircraft. If you are a multi-engine pilot, a multi-engine instructor or thinking of becoming one, this is a must attend seminar. Adam will dive into the nuts, bolts and numbers of the many theories and buzzwords of flying multi engine aircraft. He will present the information in a methodical manner. To attend this seminar, click on the link below and register TODAY.

Directions: The event will be held in the first floor lobby.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
