

## IMC Club of Ronkonkoma

Having a highly capable airplane and an Instrument rating opens up a world of new possibilities. In this scenario, you use your airplane to travel to your vacation home on Martha's Vineyard island. You are highly experienced, have made this trip dozens of times and fly a very capable high-performance airplane. While these factors should work in your favor, they can also stack the deck against you in the right circumstances. This scenario raises some important topics that should be explored and discussed by all IFR pilots. You do not need to be instrument rated to attend. Click on the link below and register TODAY.

**Directions:** The meeting will be held in the Conference Room, 2nd floor, 201.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Tue, Sep 22, 2015 - 19:00 EDT**
