

## IMC Meeting

Fog can be a killer, especially after the sun goes down. In this scenario a pilot was returning to his home airport just after dark, when he noticed an area of patchy ground fog near the landing runway. This kind of situation can be dangerous, depending on the severity of the fog and the pilot's response to it. Ride along with our scenario pilot and decide whether to continue this approach or choose another option. To attend this informative briefing, click the link below and register TODAY.

**Directions:** The meeting will be held in the Republic Airport Main Terminal Building, 2nd Floor Conference Room.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

### Event Details

**Tue, Oct 25, 2016 - 19:00 EDT**

**FRG Terminal Building**

7150 Republic Airport

221

Farmingdale, NY 11735
