

FAA Safety Team and the Farmingdale FSDO presents:

UPDATED ADDRESS - Threat and Error Management in General Aviation

At this informative two hour seminar, we'll explore Threat and Error Management. Threat and Error Management (TEM) is an overarching safety management approach that assumes that pilots will naturally make mistakes and encounter risky situations during flight operations.

We will discuss Threat & Error Management tools & techniques to make your next flight safer. A Threat is "any condition that increases the complexity of the operation."

Threats, if not managed properly, can decrease safety margins and can lead to errors.

An Error is "the mistake that is made when threats are mismanaged."

The airlines all use a formalized risk management process to reduce risk in their flights, shouldn't you?

What procedures can you as a General Aviation pilot use to help manage your threats, reduce errors, and mitigate risk to achieve a safe outcome in your flights?

Additionally, we will review some information regarding Smart Cockpits.

Only you can choose to be a safer pilot!

Event Details

Mon, Apr 23, 2018 - 19:15 EST
Port Authority Administration
Building

JFK Airport

Building 14

Jamaica, NY 11430

Directions: We updated the address of the event. This seminar will take place at the Port Authority of New York & New Jersey (PANYNJ) Administration Building at JFK Airport (NOT the PANYNJ Headquarters in Manhattan). Venue can be accessed via Belt Parkway, Nassau Expressway, and local streets. From the Van Wyck Expressway South use main entrance to the airport. Pass under the overpass with the large clock and exit on the first exit to the right (Exit B). Bear left at the bottom of the exit and continue on the service road in the direction of the exit, make an immediate right and then a left into the Port Authority parking lot. Use center building entrance, and sign in at security in the lobby.
Building #14, 2nd Floor Conference Room.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
