

Farmingdale FSDO FAA Safety Team presents:

Proficient Multi Engine Flying

Major Airline Pilot and Designated Pilot Examiner Adam Rosenberg will go in depth on multi-engine flying. Presentation and discussion will include aerodynamics, systems, flight planning, performance, maneuvers, human factors, decision making, and common practical test errors as they relate to flying multi-engine aircraft.

If you are a multi-engine pilot, a multi-engine instructor or thinking of becoming one, this is a must attend seminar. Adam will dive into the nuts, bolts, and numbers of the many theories and buzzwords of flying multi-engine aircraft.

This 90 minute informative seminar will make you a better pilot by making you more cognizant of the limitations of both pilot and aircraft. Do not miss it. Click on the link below and register TODAY.

Directions: ATP Flight School - SheltAir Aviation Building First Floor

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
