

Dying to fly your Amateur Built Aircraft?

The Wright Bros. had Charles Taylor

They spent three years learning all they could before the first flight.

Chuck Yeager had the USAF and Bell Aircraft

Development of the X-1 was a long time in the making, and Chuck Yeager was a highly trained and experienced test pilot.

Neil Armstrong had NASA

What more could we possibly say about support and training?

Who is on your team?

Are you aware an unusually high percentage of Amateur Built and Light Sport accidents are fatal?

Are you aware that there is an unusually high rate of maintenance related accidents among Amateur Built and Light Sport Aircraft?

Are you aware there is an unusually high rate of highly experienced pilots having accidents in Amateur Built and Light Sport Aircraft?
