

If You Can Drive, You Can Fly!

If you're looking for a Saturday-afternoon stroll through the sky without a lot of burdensome expense and regulation, the FAA created the sport pilot certificate in 2004 for folks just like you. The FAA's Light Sport Aircraft (LSA) category offers affordable, safe, basic aircraft for many people who would otherwise be unable to fly.

Attend this interesting and exciting safety briefing and learn about light sport aircraft and Sport Pilot privileges!

Directions: Middle T-hangar in the Sport Aviation Expo forum area.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
