

Starved and Exhausted

Fuel management accidents cause far too many General Aviation accidents, nearly two per week on average. Whether the result of fuel exhaustion, starvation or contamination, these mishaps are easily preventable. Join us for a review of some past accidents and tools you can use to prevent you from becoming a statistic!

Directions: See Map link to the Terminal Building

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
