

What's In Your Logbooks?

The documentation requirements for Light Sport and Experimental aircraft differ somewhat from those that apply to certified aircraft. In this Wings and AMT Award safety seminar, a CFII and AMT who specializes in Light Sport reviews the good, the bad, and the ugly from logbook entries he has encountered while doing pre-purchase and condition inspections on a variety of LSAs. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: The seminar will be held in the First Floor conference room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
