

Aircraft Ice - A Chilling Subject

Ice. It's great to cool beverages with and skate on, but an aircraft icing encounter can be catastrophic. It disrupts the flow of air over the wing, while significantly increasing drag. Don't get caught in this nightmare. By attending this important briefing you will learn the latest strategies for avoiding icing conditions and learn exactly what to do if you experience an inadvertent icing encounter. Click on the link below and register TODAY.

Directions: York Aviation Main Building

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
