

Stepping Up to Light Sport

"I've been flying for decades, and have thousands of hours logged in all kinds of high-performance aircraft. Flying those little Light Sport airplanes will be a piece of cake." If you believe that, you haven't been reading the accident statistics! Come to this Wings seminar to learn why transitioning to LSA is just as challenging as moving from simple to complex, and what you can do to keep yourself safe when flying slow, lightly loaded wings. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: T-hangar in the Sport Aviation Expo forum area.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
