

Mastering Radio Communications

Pilots who have mastered all the requisite flying skills often forget everything they've learned when it comes time to make a radio call. The goal of this FAA Safety Team Wings seminar is to help pilots automate the communications process, so they can concentrate on flying the aircraft. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: The meeting will be held in the first floor conference room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
