

Lancaster Fly-In Drive-In Breakfast

Unless you're flying a glider, your aircraft relies, during every moment of its operation, on high-quality fuel. In this seminar we will discuss the ways in which we safely procure fuel, store it in our tanks, feed it to our engines, and burn it to produce thrust. We will also examine some real accident cases where all of the above did not occur. Click the link below and Register TODAY!

Directions: The meeting will be held In the Lancaster Airport Passenger Terminal. Free Parking.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
