

Safety Seminar and EAA Ford Tri-Motor Flights

Maintaining older aircraft involves some unique issues. In addition to corrosion and wear, other challenges include obtaining suitable manuals, reference data, and parts. This seminar will provide pilots and mechanics with practical guidance about keeping these aircraft airworthy and safe. Click on the link below to sign up TODAY!

Directions: The seminar will be held in Hangar 2, the large hangar on the north side of the airport on Airport Road - east of the control tower across the ramp.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
