

Lancaster Fly-In Drive-In Breakfast

Night flying can be some of the most enjoyable aviating that we do. The air is smoother, aircraft performance is better, and the sights can be breathtaking. But there are added risks, including loss of control and Controlled Flight Into Terrain CFIT. This FAA Safety Team Seminar will address how to mitigate those risks by preparing the pilot and the aircraft for night flight. To register, click on the link below TODAY!

Directions: In the Terminal Building Passenger Lounge.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
