

Harrisburg Pilots Meeting

The flight review is a golden opportunity for the flight instructor to help mold safer pilots, improving the accident rate (and in particular, if properly conducted, reducing loss-of-control accidents). It is often the only opportunity that CFIs have to interact with those pilots flying for recreation and business purposes under Part 91. In this seminar we will discuss conducting a flight review that meets the particular needs of the pilot, including their flight experience, the type of aircraft they fly, and the types of airspace in which they operate.

This is a Flight Instructor Open Forum, but all pilots are welcome!

Click on the link below to register TODAY!

Directions: In the Conference Room at the AVFLIGHT FBO. Pilots flying in: The ramp fee will be waived.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
