

## SnapFlight USA Pilots Meeting

Aviation safety experts believe that 75% of aircraft accidents are caused by human factors—involving the pilot. In this seminar we will go beyond “pilot error” and explore human factors on several levels. We will study the human element in an actual airline accident and see whether the human factors framework also applies to personal business and recreational flying.

**Directions:** In the Conference Room in the General Aviation Terminal

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
