

Possible Government Shutdown - See Below - Smoketown Helicopters Fly-In/Drive-In

Night flying can be some of the most enjoyable aviating that we do. The air is smoother, aircraft performance is better, and the sights can be breathtaking. But there are added risks, including loss of control and CFIT. This FAASafetyTeam Seminar will address how to mitigate those risks by preparing the pilot and the aircraft for night flight.

Click on the link below to register TODAY!

Directions: At Smoketown Helicopters

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
