

## Lancaster Fly-In Drive-In Breakfast

Aerospace Engineer Jerry Lockenour will tell us about past, present, and future aerospace engineering developments, including vertical takeoff & landing aircraft, advanced jet fighters, and unmanned air vehicles—as well as the safety challenges presented by these machines. He also will share some of his experiences from a fascinating engineering career, including his contributions to the YF-16, HIMAT, and asymmetric aircraft projects.

Click on the link below and register TODAY!

**Directions:** In the Terminal Building Passenger Lounge

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
