

Four Fundamentals of Flight

When paging through FAA Practical Test Standards or Airman Certification Standards, most student pilots become overwhelmed by the huge number of skills which must be mastered. Aviation is indeed a multi-disciplinary endeavor! Avoid information overload by breaking flight down to the four most basic maneuvers. If you can execute these four tasks (first individually, and then in combination), you can fly.

Directions: First floor conference room

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
