

Time Change! - Capital City Airport Community Day

This WINGS-credit seminar will present an overview of how UAS (Unmanned Aircraft Systems) work and how they may share our airspace with other aircraft. We also will discuss Part 107 Commercial UAS regulations and future concepts for, and issues arising from, the use of drones.

There also will be an opportunity to fly a drone inside the hangar, adjacent to the seminar location.

Directions: This seminar will be held in EAA Chapter 122's new headquarters in Hangar 2 - the large hangar on the north side of the airport, across the ramp east of the Tower. For aircraft flying in for the seminar, the usual ramp fee will be waived, and a discount on fuel will be offered.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
